## EOU Onsite Courses in La Grande Fall Term 2009

### **ANTH 340 Frauds/Myths/Myst (2) (SSC)**

A course designed to examine the scientific validity of questionable theories about the human past, and to explore and apply the techniques of scientific inquiry generally. Topics include the Piltdown Man hoax, ancient astronauts, the lost continent of Atlantis, and other pseudoscientific claims. Prerequisite: None, but anthropology and/or other social science courses strongly recommended.

**Instructor:** Kathleen Dahl

**Dates:** Friday November 13, 7-10pm and Saturday November 14, 9am-5pm

**Place:** EOU Ackerman 103

### **BIOL 310 Riparian Biology (2)**

Topics of current interest to the general public. Prerequisites: An introductory biology sequence for majors or non-majors.

**Instructor:** Karen Antell

**Dates:** Friday October 02, 6-9pm ; Saturday October 3, 9am-4pm and Saturday October 10, 9am-4pm

**Place:** Badgley 324

### **GEND 310 Woman & Mental Health (2)**

This course will address the impact of mental health issues on women across the lifespan. Contemporary theories about why women suffer from certain mental health issues at rates higher than men will be reviewed and critiqued.

**Instructor:** Megan A. Schmidt

**Dates:** Friday October 16, 6-9pm and Saturday October 17, 9am-5pm

**Place:** EOU Ackerman 114

### **GEND 310 Prostitution & Human Trafficking (2)**

This course will address global prostitution and trafficking of women and children.

**Instructor:** Megan A. Schmidt

**Dates:** Friday October 20, 6-9pm and Saturday October 21, 9am-5pm

**Place:** EOU Ackerman 114

### **PHIL 341 Philosophy Issues in Science (2) (AEH)**

Natural science is the best example we have of a reliable knowledge gathering enterprise: What it has taught us about the natural world is phenomenal. And for precisely this reason it provides, for many individuals, the means by which any claim arising from other human pursuits or activities is to be evaluated. What happens, or should happen, when such claims are challenged, even "contradicted", by the findings of natural science? This course will consider that question as it pertains to the Judeo-Christian account of the creation and structure of the universe.

**Instructor:** Mark Webb

**Dates:** Friday October 23, 6-9pm and Saturday October 24, 9am-5pm

**Place:** EOU Ackerman 114

### **SOC 310 Collaborations in Community (2)**

Discussion-based courses on selected topics of sociological interest. Prerequisite: May be required for some topics.

**Instructor:** Vernita L. Ediger

**Dates:** Friday October 30, 6-9pm and Saturday October 31, 9am-5pm

**Place:** EOU Ackerman 114

### **SPAN 210 & 310 Art Pol & Mex Way of Life (2)**

**Instructor:** Teresita Gutierrez-Becceril

**Dates:** Friday October 9, 6-9pm and Saturday October 10, 9am-5pm

**Place:** EOU Ackerman 104
