

COLLOQUIUM

Thursday, March 12th, 4pm
Ackerman Hall, Room 210

Presentation:

Utilization of Students' Narratives in Assessing Developmental
Levels of Learning: Results of 3 Years of Observation

Guest Presenters:

Ted J. Takamura PhD
and
Donald "Lee" Sellers MBA MBIS

Faculty at EOU's
College of Business
Gresham, OR

This presentation describes the utilization of students' personal stories to assess developmental levels of learning driven by the use of a simulation. Regardless of your academic bent this presentation will engage you by drawing on a multi-disciplinary body of knowledge. The intention of this presentation is to demonstrate what we have discovered and to begin a dialogue with others across the disciplines on the use of these methodologies. In doing so we hope to better collaborate with our students and fellow educators in improving the ways we measure and assess whether significant learning is taking place in the classroom. A MUST ATTEND if you are an interested in student learning and assessment.

From this presentation we will explore:

- How to listen for students' learning when engaging group dynamic processes
- How simulation can be utilized to develop and assess thinking
- How journaling contributes to deep learning and greater thinking skills

Presentation begins at 4:00 pm

Refreshments provided at 3:30 pm
