

College of Arts and Sciences
Certificate in Computer Programming
Check Sheet

The certificate in computer programming provides the basic skills for entry-level computer programming positions and lays the foundation for the specialized certificates in intermediate programming, systems engineering, and web authoring. The courses included in the basic programming certificate introduce the use of structured and object-oriented programming techniques for problem-solving. These courses will be available on-campus and at remote sites via E-Luminate.

Required Courses:

<u>Prefix & #</u>	<u>Title</u>	<u>Credits</u>	<u>Completed</u>
CS 161	Foundations of CS I	4	_____
CS 162	Foundations of CS II	4	_____
CS 260	Data Structures	4	_____

Total: 12

A minimum of 4 credits must be from EOU.

Students must complete the coursework with a “C-“ or better to count towards the certificate, with an overall cumulative GPA of 2.0 for the certificate.
