Eastern Oregon University

Program GEC - Courses

Program GEC - Courses

Content Knowledge - Learn and use the vocabulary, content, and conceptual knowledge in a variety of disciplines. A general education course introduces students to the broad strokes of accumulated knowledge in a specific discipline through its key vocabulary, content, and concepts. A general education course contextualizes the discipline historically, culturally, and socially.

Communication - Demonstrate the ability to read, write, and communicate, taking into consideration purpose, audience, and occasion.

A general education course assists students in learning the reading, writing, and general communicative skills required by the discipline, often guiding students through the processes of reflection, response, and revision to enhance effectiveness.

Critical Thinking - Demonstrate the ability to identify and explain issues, recognize contexts and assumptions, acknowledge multiple perspectives, evaluate evidence to reach conclusions.

A general education course requires students to develop the habits of mind within a discipline, considering the different purposes and audience for the work within the course, and reveals to students the connections the discipline has with other disciplines.

Further Learning and Civic Engagement - Demonstrate a readiness for further learning and for service to society. A general education course encourages students to see opportunities for further reflection, lifelong learning, and service to society in ways that allow them to apply the skills and knowledge of the course in settings outside the university classroom.
