

## Making a Course Available in Blackboard 9

1. Log into Blackboard and open the course you want to make available. Expand the Customization Menu in the Control Panel by clicking on it.

2. Click on Properties in the Customization Drop-down menu.

3. The Course Properties will display in the main display area of Blackboard. Scroll down to Section 3 and click Yes to make the course available.

Course Name: David's function sandbox

Description

2. Classification

Subject Area: Education
