**Subject:** Internship Opportunity in Representative Greg Walden's La Grande Office

**Internship Opportunity in Representative Greg Walden's La Grande Office**

Representative Walden's La Grande office has an immediate internship opening, start/end dates and weekly schedule are flexible. The internship would provide a first hand look at the operations of a congressional office and learn about how government functions. Responsibilities would consist of general office work (answering phones, dealing with mail, inputting information into our computer database) plus there would be opportunities for research of various agricultural/natural resources issues...and the opportunity to connect with Rep Walden when he is in the area.

Representative Walden's offices in Medford, Bend and Washington, DC also have internship opportunities for college or graduate students (or recent graduates of either) interested in spending some time learning about the inner-workings of a congressional office while gaining valuable professional work experience as well. Opportunities occur throughout the year and the office can be flexible regarding start and end dates.

If you are interested in applying for an internship, please email or fax a completed [intern application](#) along with your resume and cover letter, as well as any questions you might have, to one of the following contacts:
