The next block lists the major requirements.

This is where the catalog year is very important. This applies to majors, concentration, and minors. For example if the minor block is not showing, check the catalog year. Degree Works is programmed based on the catalog ie. the biology concentrations begin Fall 2010, so a student admitted prior to Fall 2010 will not show a concentration unless the catalog year for the major and concentration have been updated.

# Notes:

Transfer coursework: As we are in the process of articulating transfer work, students will have transfer coursework displayed in their audit in various ways:

- TRAN 0000 , this block of transfer work has not been articulated and will be listed in the audit under electives. The Registrar's Office can articulate this course work however please be patient.
  - TRLD/TRUD, these courses are split by course and attributes and are assigned but not set up as equivalencies. These can be applied to specific requirements in the audit by exceptions. The degree audit will recognize these as upper division and lower division limits and attributes will apply.
  - Students admitted Fall 2013 (some prior) have all of their coursework articulated. These articulated courses have been reviewed and approved by appropriate discipline faculty. Degree Works can apply these courses in the appropriate blocks to meet specific requirements.
