

Suggested revision to CS/MM 121 Syllabus:

Previous grade computations

Grading

Your final grade for this course will depend on your completion of the assigned homework and projects, quizzes, and an exam. Distribution of credit is as follows:

Quizzes:	10 percent
Exam:	30 percent
Exercises & reports:	40 percent
Attendance	20 percent

Grade cutoffs will be no higher than 92 for A, 84 for B, 75 for C and 65 for D, but *may be lower* if statistical analysis of the distribution of scores indicates they should be.

Proposed new computations:

Grading

Your final grade for this course will depend on your completion of the assigned homework and projects, quizzes, and an exam. Distribution of credit is as follows:

Quizzes & Exercises:	20 percent
Exam:	25 percent
Group Presentation:	35 percent
Attendance:	20 percent

Grade cutoffs will be no higher than 92 for A, 84 for B, 75 for C and 65 for D, but *may be lower* if statistical analysis of the distribution of scores indicates they should be.
