Assessment Report - Four Column
Eastern Oregon University
Program (CAS) Chemistry/Biochemistry

Catalog Description: Eastern Oregon University's Chemistry and Biochemistry Program prepares students for productive and satisfying careers in research, technology, health, environment, public service and teaching. By enthusiastically sharing its knowledge and love of learning, the Program also serves the general education needs of the University and the geographically broad community.

How Program serves the Mission: The Chemistry and Biochemistry Program provides two separate degree programs and supports the physical science liberal arts core. Graduates of these programs are highly sought after in the private and public sectors, and find employment as teachers, research chemists, or chemical technicians in industry, government labs and state or federal agencies. Most graduates continue to pursue advanced degrees in the physical and life sciences, the health professions, and in the Master of Arts in Teaching (MAT) program.

| Program (CAS) Chemistry/Biochemistry - Content Knowledge - Students will understand the basic chemical/biochemical principles and content in the major specialty areas, which include inorganic, organic, physical, analytical, and biochemistry. | **Description of Assessment:** Standardized American Chemical Society exam  
**Assessment Type:** Exam/Quiz - Standardized  
**Benchmark:** 35.7% | **07/12/2011** - The post course assessment showed that most students (92%) performed at or above the minimum performance criterion. This compared to 61% of students for the pre-course assessment, thereby demonstrating increased mastery of content knowledge. Relative to Fall 2008 (82% achieving the minimum standard), this year’s results showed a slight improvement.  
**Benchmark Met:** Yes | **07/12/2011** - The performance on the standardized exam for this year’s class mirrored consistent good performance on instructor created testing examination modes throughout the Fall term which were non-multiple choice based. The strong performance for this year’s CHEM 204 class may have been facilitated by the recent introduction of a peer-led ChemExcel CHEM 210 course that provided students with parallel problem-based examples of lecture course content. On the basis of this year’s CHEM 204 assessment, the Chemistry & Biochemistry program does not at this time propose any substantive changes. |
| Year(s) to be Assessed:  
2009-2010  
2013-2014 | **Reporting Year:** 2009-2010  
**Related Documents:** Assessment Summary | **07/12/2011** - Relative to previous years, the results were poorer than average. For example: in the previous year (2007-08), 92% of students | **07/12/2011** - This is one of the most challenging classes that science students routinely take. The       

07/12/2011 - Relative to previous years, the results were poorer than average. For example: in the previous year (2007-08), 92% of students

<td>performance on the standardized exam for this year's class mirrored consistent poor performance on instructor created tested examination modes for the entire year which were non multiple choice based. On the basis of this year’s CHEM 336 assessment, the Chemistry &amp; Biochemistry program will undertake the following pedagogical changes: (i) Addition of an instructor-led study session to be held on Friday afternoons. (ii) Creation of a peer-led study session to be held during the evening. (iii) Continued ongoing annual assessment of the CHEM 336 course.</td>

<td>appropriate documentation including literature searches.</td>
<td>CHEM 407: Preparation of a technical paper and seminar presentation</td>
<td>10/31/2012 - This is a first time assessment; there are no previous data to compare results to. Based on this assessment, 86% of EOU students met or exceeded the minimum accepted performance level.</td>
<td>10/31/2012 - Because this is a 3-term senior class worth only one credit, students tend to procrastinate doing the work. Some suggestions for remedying this include: making the class worth more than one credit, assigning faculty mentors for each student, and requiring that each student pass the previous term prior to moving on.</td>

Curriculum Map
Eastern Oregon University
Program (CAS) Chemistry/Biochemistry

**Content Knowledge** - Students will understand the basic chemical/biochemical principles and content in the major specialty areas, which include inorganic, organic, physical, analytical, and biochemistry.

- CHEM 204 - Gen Chemistry
- CHEM 205 - Gen Chemistry
- CHEM 206 - General Chemistry
- CHEM 285 - Chemical Safety
- CHEM 320 - Analytical Chemistry
- CHEM 334 - Organic Chem I
- CHEM 335 - Organic Chem II
- CHEM 336 - Organic Chem III
- CHEM 421 - Instrumental Analysis
- CHEM 440 - Thermodynamics
- CHEM 441 - Quantum Mechanics
- CHEM 442 - Chemical Dynamics
- CHEM 450 - Structural Biochemistry
- CHEM 451 - Metabolic Biochemistry

**Applied Learning Skills** - Students will acquire safe chemical/biochemical laboratory practices and techniques including the use of instrumentation and computers.

- CHEM 204 - Gen Chemistry
- CHEM 205 - Gen Chemistry
- CHEM 206 - General Chemistry
- CHEM 285 - Chemical Safety
- CHEM 321 - Analytical Chem Lab
- CHEM 338 - Organic Chem I Lab
- CHEM 339 - Organic Chem II Lab
- CHEM 361 - Environmental Chem Lab
- CHEM 401 - Research
- CHEM 412 - Inorganic Chem Lab
- CHEM 422 - Instrumental Analysis Lab
- CHEM 437 - Organic NMR Spectroscopy
- CHEM 443 - Thermodynamics Lab
- CHEM 444 - Quantum Mechanics Lab
- CHEM 445 - Chemical Dynamics Lab
- CHEM 454 - Biochemistry Lab

**Inquiry and Integrated Learning** - Students will be able to design and conduct chemical/biochemical research with appropriate documentation including literature searches.

- CHEM 204 - Gen Chemistry
- CHEM 321 - Analytical Chem Lab
- CHEM 339 - Organic Chem II Lab
- CHEM 361 - Environmental Chem Lab
- CHEM 401 - Research
- CHEM 437 - Organic NMR Spectroscopy
Communication and Critical Thinking - Students will understand the importance of the discipline to modern society and be able to communicate chemical/biochemical information both orally and in writing to their peers and the public.

* CHEM 204 - CHEM 204 - Gen Chemistry*SMI
* CHEM 206 - CHEM 206 - General Chemistry*SMI
* CHEM 320 - CHEM 320 - Analytical Chemistry
* CHEM 339 - CHEM 339 - Organic Chem II Lab
* CHEM 407 - CHEM 407 - Seminar
* CHEM 437 - CHEM 437 - Organic NMR Spectroscopy
* CHEM 443 - CHEM 443 - Thermodynamics Lab
