

EASTERN OREGON UNIVERSITY

Psychology

PROGRAM OBJECTIVES
The degree program in Psychology provides specialized study in psychology within the context of the broader goals of a liberal arts education. The psychology program promotes an understanding of behavior, provides an understanding of the foundations of psychology as a scientific discipline, integrates the influence of psychology on contemporary thought, and promotes skills in scientific research. An undergraduate degree in psychology prepares students for entry into graduate and professional schools and prepares students for entry-level positions in the helping professions.

LEARNING OUTCOMES
Students receiving a B.S. or B.A. in Psychology will have the following:

• Content Knowledge: The ability to demonstrate knowledge of content within the discipline.
• Communication: The ability to read and discuss primary research in psychology.
• Inquiry: The ability to design and carry out a research project.
• Critical Thinking: The ability to describe evidence, draw conclusions, and write in a scientific style.

MEANS OF ASSESSMENT
Students in psychology are offered a variety of ways to demonstrate their proficiencies. Faculty use assessments such as written exams, written papers, reports based on primary research articles, oral presentations, small group collaborations, completion of computerized statistical projects, participation in laboratory research, written laboratory reports, supervised field experience, and capstone research projects, all geared toward quantitative and qualitative assessment of specified learning outcomes by means of stated criteria.

REQUIREMENTS FOR THE BACHELOR OF ARTS OR THE BACHELOR OF SCIENCE IN PSYCHOLOGY
• In order to graduate with a degree in psychology, the student must have a minimum grade of “C-” in all psychology courses counted toward the major and must have a minimum overall Eastern GPA of 2.00.
• The student must complete Eastern Oregon University graduation requirements.
• Required Courses:
  PSY 201 General Psychology (4)
  PSY 202 General Psychology (4)
  PSY 222 Writing in Psychology (3) (UWR)
  PSY 223 Intro Lab Methods in Psychology (3)
  STAT 327 Stat & Experiment Design (5)

Minimum of 25 hours from the following list of 300 level courses:
  PSY 310 Selected Topics (1-6)
  PSY 311 Child Development (5)
  PSY 321 Stress & Disease (3)
  PSY 330 Emotion (5)
  PSY 335 Cognitive Psychology (5) (UWR)
  PSY 342 Brain & Behavior (5)

  PSY 343 Learning (5)
  PSY 344 Sensation & Perception (5)
  PSY 345 Motivation (5)
  PSY 350 Abnormal Psychology (5)
  PSY 357 Evolution and Behavior (5)
  PSY 360 Principles of Social Psychology (5)
  PSY 370 Personality (5) (UWR)

Minimum of 15 hours from the following list of 400 level courses:
  PSY 407 Seminar (up to 5)
  PSY 410 Selected Topics (up to 10)
  PSY 424 Psychological Assessment (6)
  PSY 433 Psychopharmacology (5)
  PSY 442 Neuropsychology (5)
  PSY 451 Clinical Interventions (5)
  PSY 453 Principles of Behavior Analysis (5)
  PSY 473 Family Systems Theory and Therapy (5)

CAPSTONE COURSE OPTIONS:
  PSY 403 Honors Thesis (5) (UWR) On campus only
  PSY 461 Research in Experimental Psychology (5)
  PSY 441 Project in Experimental Psychology (5) (UWR) (This course has a prerequisite of PSY 440).

This major is also available via online/on-site. Majors enrolled in the online degree program in Psychology must complete an admit-to-program form after completion of the 200-level Psychology requirements, STAT 327, and one other 300-level Psychology core course.

TYPICAL FIRST YEAR CURRICULUM
Fall
  PSY 201 General Psychology (4)
  General Education or Elective Courses (1-4)
  Math and Writing Courses (7)

Winter
  PSY 202 General Psychology (4)
  General Education or Elective Courses (8-11)

Spring
  PSY 222 Writing in Psychology (3)
  PSY 223 Intro to Lab Methods in Psychology (3)
  General Education or Elective Courses (7-10)
TYPICAL SECOND YEAR CURRICULUM

Fall
PSY 350 Abnormal Psychology (5) or
PSY 370 Personality (5)
General Education and Elective Courses (7-10)

Winter
PSY 311 Child Development (5)
General Education or Elective Courses (7-10)

Spring
PSY 330 Emotion (5)
General Education or Elective Courses (2-5)

TYPICAL THIRD YEAR CURRICULUM

Fall
PSY 342 Brain & Behavior (5)
General Education or Elective Courses (7-10)

Winter
PSY 343 Learning (5)
PSY 401 Research (1-6)
General Education or Elective Courses (5-7)

Spring
PSY 335 Cognitive Psychology or
PSY 343 Principles of Behavior Analysis (5)
STAT 327 Statistics and Experimental Design (5)
General Education or Elective Courses (2-5)

TYPICAL FOURTH YEAR CURRICULUM

Fall
PSY 424 Psychological Assessment (6)
General Education or Elective Courses (4-6)

Winter
PSY 409 Practicum (1-15) or
PSY 401 Research (1-6)
PSY 451 Clinical Interventions (5)
PSY 460 Experimental Psychology (5)
General Education or Elective Courses (5-7)

Note: Online Students take PSY 440 (5)

Spring
PSY 433 Psychopharmacology (5) or
PSY 442 Neuropsychology (5)
PSY 461 Research in Experimental Psychology (5)
General Education or Elective Courses (7-10)

REQUIREMENTS FOR THE MINOR IN PSYCHOLOGY
(If minor is also available via online/onsite)
• A minimum of 33 graded credits are required for the minor.
• Required courses:
  PSY 201, 202 General Psychology (4), (4)
  • Complete 25 credit hours from the following list:
    PSY 310 Selected Topics (1-6)
    PSY 311 Child Development (5)
    PSY 321 Stress & Disease (3)
    PSY 330 Emotion (5)
    PSY 335 Cognitive Psychology (5)
    PSY 342 Brain & Behavior (5)
    PSY 343 Learning (5)
    PSY 344 Sensation and Perception (5)
    PSY 345 Motivation (5)
    PSY 350 Abnormal Psychology (5)
    PSY 357 Evolution and Behavior (5)
    PSY 360 Principles of Social Psychology (5)
    PSY 370 Personality (5)
• Students must earn a grade of “C-” or better in all Psychology courses counting toward the minor.
• A minimum of 10 credits counting toward the minor in Psychology must be completed at Eastern Oregon University.

PSYCHOLOGY COURSE DESCRIPTIONS

PSY 110 - Selected Topics (Credits: 1 to 6)

PSY 201 - Gen Psychology*SSC (Credits: 4)
Gen Ed Core-Social Sciences
An examination of fundamental processes of human and animal behavior with emphases on methodology, biological bases of behavior, learning, motivation, perception, and cognitive processes. College level reading and writing skills needed.

PSY 202 - Gen Psychology*SSC (Credits: 4)
Gen Ed Core-Social Sciences
An examination of fundamental processes of human behavior with emphases on development, abnormal behavior, and assessment of individual differences. Prerequisite: PSY 201.

PSY 207 - Seminar in Psychology (Credits: 1 to 6)
Examination of an area in psychology through student presentations and discussion.

PSY 210 - Selected Topics (Credits: 1 to 6)
In-depth presentation of a topic of interest to both students and faculty. Prerequisite: May be required for some topics.

PSY 211 - Intro Lifespan Development (Credits: 3)
This course introduces principles of human development from birth through adulthood. Students will be exposed to a variety of concepts and research findings regarding lifespan development. Students will be able to discuss the strengths and weaknesses of the varying approaches to development, as well as the difficulties with defining and measuring “average” developmental milestones. Prerequisite: PSY 201.
PSY 222 - Writing in Psychology (Credits: 3)
Institutional Graduation Requirement - UWR
An introduction to writing in the academic discipline of psychology. Emphasis on the practice of writing skills and examination of various types of papers in psychology. Prerequisite: PSY 201. PSY 202 is required but may be taken concurrently.

PSY 223 - Intro Lab Mthds In Psych (Credits: 3)
Laboratory activities emphasizing the methods used in psychology research including experimental design, data collection, descriptive data analysis, basics of significance testing, graphing results, and interpreting findings. Prerequisite: PSY 201. PSY 202 is required but may be taken concurrently.

PSY 231 - Human Sexuality*SSC (Credits: 3)
Gen Ed Core-Social Sciences
An introductory course covering the broad area of human sexual behavior. Topics include reproduction and gestation, cultural variations in behavior, sexually transmitted diseases, sexual stereotypes, and current sexual attitudes.

PSY 242 - The Mind*SMI (Credits: 5)
Gen Ed Core-Natural, Math & Info Sciences
An introduction to neuroscience: the study of the brain and human behavior. Topics will include the neurobiology of development, learning and memory, thinking, emotion, motivation, psychopharmacology, and mental illness.

PSY 310 - Selected Topics (Credits: 1 to 6)
Prerequisite: May be required for some topics. Student must have at least sophomore standing to register for this course.

PSY 311 - Child Development*SSC (Credits: 5)
Gen Ed Core-Social Sciences
Principles of human development from birth through adolescence. Biological, cognitive, and social development will be examined. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 321 - Stress & Disease*SMI (Credits: 3)
Gen Ed Core-Natural, Math & Info Sciences
This course examines both the historical and current research in the field of psychoneuroimmunology. Emphasis will include the relationship between psychological stress and physical diseases, the physiological and psychological assessment of stress, the effects of stress hormones on immune function, and conditioned immune responses in animals. This course will attempt to fairly present our current understanding of the relationships between psychological stress and cancer, AIDS, and infectious diseases. We will examine experimental design limitations that have made interpretations of research often controversial. Student must have at least sophomore standing to register for this course.

PSY/STAT 327 - Stat & Exper Design*SMI (Credits: 5)
Gen Ed Core-Natural, Math & Info Sciences
Principles of experimental design and associated data analysis techniques such as regression, hypothesis testing, analysis of variance, and non-parametric statistics; experience with statistical packages for computers; introduction to exploratory data analysis. Prerequisite: Student has met math requirement for graduation. This course requires students to apply basic principles of mathematics including algebra. Intermediate Algebra or equivalent recommended. Students who have concerns about their level of mathematics preparation should discuss this with their adviser or their instructor. Student must have at least sophomore standing to register for this course.

PSY 330 - Emotion*SSC (Credits: 5)
Gen Ed Core-Social Sciences
Exploration of classic and current psychological research about such issues as how emotions function in communication, develop during infancy and childhood, are accompanied by physiological reactions, and relate to thought, mood, and memory. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 335 - Cognitive Psychology*SMI (Credits: 5)
Gen Ed Core-Natural, Math & Info Sciences
Institutional Graduation Requirement - UWR
An introduction to the study of human cognition including topics such as memory, knowledge representation, problem solving, language, imagery, and attention. Includes lecture and laboratory sessions. Prerequisite: PSY 201, 202 and 222 or consent of instructor. Co-requisite: Enrollment in PSY 335L (on-campus only). Student must have at least sophomore standing to register for this course.

PSY 335L - Cognitive Psychology Lab (Credits: 0)
Must be taken concurrently with PSY 335(on-campus only). Student must have at least sophomore standing to register for this course.

PSY 342 - Brain & Behavior (Credits: 5)
Fundamentals of neurophysiology, neuropharmacology and functional neuroanatomy. Topics such as brain mechanisms of reward, learning, memory, motivation, and reproductive behaviors. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 343 - Learning (Credits: 5)
A thorough survey of modern learning and conditioning principles. This course emphasizes the experimental analysis of learning and adaptive behavior and demonstrates how experimental research can be, and is applied to the understanding and modification of human behavior. Prerequisite: PSY 201 and 202 or consent of instructor. Co-requisite: Enrollment in PSY 343L (on-campus only). Student must have at least sophomore standing to register for this course.
PSY 343L - Learning Lab (Credits: 0)
Must be taken concurrently with PSY 343(on-campus only). Student must have at least sophomore standing to register for this course.

PSY 344 - Sensation & Perception (Credits: 5)
Survey of fundamental approaches to the study of visual and auditory functions with some consideration of touch, taste, and smell. Includes lecture and laboratory sessions. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 345 - Motivation (Credits: 5)
Students will be exposed to a variety of competing paradigms (e.g., biological, psychoanalytical, learning, cognitive, and cultural) on topics related to motivation (e.g., biological motives [hunger, thirst, sex], energy and arousal, rewards, decision-making, cognitive processes) and required to think critically about each. Students will be able to discuss the strengths and weaknesses of each approach to motivation, as well as the difficulties with defining and measuring motivation. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 350 - Abnormal Psychology (Credits: 5)
Study of behavior pathology and mental health through considerations of etiology, symptomatology, diagnosis, treatment procedures, and prognosis. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 357 - Evolution & Behavior*SMI (Credits: 5)
Gen Ed Core-Natural, Math & Info Sciences
Introduction to the evolutionary mechanisms that influence behavior, learning, choice, intelligence, and instinct in humans and animals. Identification of the relationships between a species’ environment and the species’ abilities. Critical examination of explanations of complex behaviors based on proximate and ultimate causation. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 360 - Principles of Social Psychology (Credits: 5)
This course provides an introduction to and survey of social psychology, which is the study of individual behavior and thought in social situations. The course will cover such topics as attributions, social thinking, the self, attitudes, prejudice, helping behavior, group decision making, and applications of social psychology. Prerequisite: PSY 201 and 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 370 - Personality (Credits: 5)
Institutional Graduation Requirement - UWR
An introduction to the major theoretical perspectives and fundamental principles of personality. Emphasis is placed on developing an understanding of the relationship between these principles and how they apply to individuals in contemporary society. Prerequisite: PSY 201 and PSY 202 or consent of instructor. Student must have at least sophomore standing to register for this course.

PSY 401 - Research (Credits: 1 to 6)
Students conduct research or a literature review on a topic of interest. Prerequisite: Completion of all 300-level requirements or consent of instructor. Student must have at least junior standing to register for this course.

PSY 403 - Honors Thesis (Capstone) (Credits: 5)
Institutional Graduation Requirement - UWR
Students will design and conduct a substantial individual research project, write a publication-style manuscript based on their work, give an oral defense of the thesis, and complete a professional presentation of their work. Prerequisites: Completion of all 300-level requirements, GPA of at least 3.33 in psychology courses at beginning of the senior year, and consent of a psychology faculty member. Student must have at least junior standing to register for this course.

PSY 405 - Reading & Conference (Credits: 1 to 5)
Student must have at least junior standing to register for this course.

PSY 407 - Seminar (Arranged) (Credits: 1 to 6)
Opportunity for small groups of students to pursue topics of interest or to extend specific topics arising out of course material. The seminars vary from year to year depending upon interests and needs of students and upon availability of faculty. Student must have at least junior standing to register for this course.

PSY 409 - Practicum (Credits: 1 to 15)
Supervised experience in selected agencies for advanced-level psychology majors where classroom theory can be practiced and evaluated. Normally taken following the completion of psychology course work. Prerequisite: Completion of all 300-level requirements. Student must have at least junior standing to register for this course.

PSY 410 - Selected Topics (Credits: 1 to 6)
In-depth presentation of a topic of interest to both students and faculty. Topics will vary from year to year depending on interests and availability of faculty. Prerequisite: May be required for some topics. Student must have at least junior standing to register for this course.

PSY 424 - Psychological Assessment (Credits: 6)
An introduction to theory and principles underlying the psychological assessment of personality and intelligence. Students will have an opportunity to administer, score, and write reports on several kinds of psychological tests. Prerequisite: STAT 327 or equivalent. Student must have at least junior standing to register for this course.
PSY 433 - Psychopharmacology (Credits: 5)
Advanced study of neuropharmacology and biological mechanisms of drug action. Topics include the mechanisms of action for drugs such as: amphetamine and cocaine, antidepressants, alcohol, psychotropic drugs, and antipsychotics. Prerequisite: PSY 342. Student must have at least junior standing to register for this course.

PSY 440 - Methods/Labs Experiment Psy (Credits: 5)
This course reviews experimental methods in psychology. Students will participate in experiments using a set of computerized studies. The course will cover background literature searches, experimental methods, ethical treatment of participants, data analysis, discussion and interpretation of findings, and writing laboratory reports. The course will culminate with a proposal for an experiment. Prerequisite: PSY 222, PSY 223, completion of all 300-level requirements, and STAT 327. Student must have at least junior standing to register for this course.

PSY 441 - Project in Experimental Psy (Capstone) (Credits: 5)
Institutional Graduation Requirement - UWR
Students will implement the individually created research proposal designed in PSY 440. Students will revise the research proposal if necessary, collect and analyze data, write an APA-style research paper based on their findings, and create a software poster presentation of their research for review and comment by course participants and EOU psychology faculty. Prerequisites: PSY 222, PSY 223, STAT 327, PSY 440 and completion of all 300-level requirements. Student must have at least junior standing to register for this course.

PSY 442 - Neuropsychology (Credits: 5)
This course is designed to introduce the student to the field of clinical neuropsychology. The course will review the anatomy and basic function of the brain, particularly that of the cerebral cortex. Major neuropsychological dysfunctions related to brain damage, as well as what neurological disorders can reveal about normal brain functioning, will be presented. Students will also gain an understanding of the typical assessment tools and procedures for diagnosing neuropsychological disorders. Prerequisite: PSY 335 or PSY 342.

PSY 451 - Clinical Interventions (Credits: 5)
An overview of intervention techniques used in clinical psychology including crisis intervention, individual and group therapy, desensitization training, and relationship development, and ethics. Prerequisite: PSY 350. Student must have at least junior standing to register for this course.

PSY 453 - Principles of Behavior Analysis (Credits: 5)
Study of behavioral principles and their application to human behavior change in a variety of settings. Prerequisite: PSY 343. Student must have at least junior standing to register for this course.

PSY 460 - Experimental Psychology (Credits: 5)
Institutional Graduation Requirement - UWR
Advanced study of experimental design, ethical issues in research, and data analysis. Students will review the literature and develop a proposal for a research project on a topic of interest. The research project will be completed in PSY 461. Prerequisite: PSY 222, PSY 223, STAT 327, and completion of the Psychology 300 level core (25 credits). Student must have at least junior standing to register for this course.

PSY 461 - Research Experimental Psych (Credits: 5)
In this capstone course, students will revise an individualized research proposal developed in PSY 460, collect and analyze data, and prepare a professional style research poster. Prerequisite: PSY 222, PSY 223, STAT 327, completion of the Psychology 300 level core (25 credits) and PSY 460. Student must have at least junior standing to register for this course.

PSY 473 - Family Systems Theory & Therapy (Credits: 5)
This course will examine the major tenets of systems theory, specifically focusing on the role that family systems play in the development of the individual. An overview of the current theories and methods of family intervention will be explored. Some research methodology and assessment techniques employed by the theorist/theories will be studied as well. Focus will be on both learning the systematic family theories as well as practically applying their methodology to personal and vignette situations. Prerequisite: PSY 311 or PSY 350. Student must have at least junior standing to register for this course.

PSY 510 - Selected Topics (Credits: 1 to 6)
Topics of current interest to students and faculty, such as advanced data analysis, learning, research, and applications. Prerequisite: May be required for some topics. Student must have graduate standing to register for this course.
