# Introduction

Eastern Oregon University has been engaged with local, regional, statewide, and national resources in preparing to resume operations and engage with students, faculty, and our community. Planning for resuming activities is a complex endeavor. The overarching principle guiding our planning is to maintain the health and safety of our students, faculty and staff, and our community.

EOU's Resumption Plan includes a number of prevention and response guidance protocols to both prevent and limit the spread of the SARS-CoV-2 virus (the virus that causes COVID-19) while moving ahead to a modified in-person experience for students in fall 2020. Additionally, the plan aligns with Governor Brown's Executive Order No. 20-28, federal/state/local public health guidelines, and specialized guidelines for student housing and athletics.

- [OHA/HECC Guidance for the Conduct of In-Person Instructional, Residential, and Research Activities at Oregon Colleges and Universities](#)
- [CDC Coronavirus Disease 2019 \(COVID-19\) Guidelines](#)
- [Executive Order No. 20-28](#)
- [NAIA Fall 2020 Guidelines & Recommendations](#)
- [Oregon Universities Resumption Guidance: Housing and Dining Plan](#)
- [Eastern Oregon University COVID-19 Pandemic Face Covering Policy](#)

EOU will design and maintain classrooms, labs, workspaces, activities and events that prioritize public health and safety utilizing the following design principles:

- Maximize the physical distancing of participants to follow current CDC and OHA guidelines
- Staggered and modified schedules
- Reduced density
- Enhanced cleaning
- Continued use of technology for meetings
- Close cooperation with local health authorities for prevalence testing and contact tracing
- Public health messaging
- Personal responsibility and public decency

These criteria (listed below) are set at the statewide level and are applicable by county. EOU consults regularly with local authorities to confirm the following components of readiness to resume onsite activity. For both testing and contact tracing, local capacity through public health and regional healthcare providers is sufficient to current demand and surge capacity in Union County.

- Declining prevalence of COVID-19
- Adequate contact tracing system
- Adequate isolation facilities
- Adequate testing capability
- Confirmed surge capacity
- Sufficient healthcare capacity
- Sufficient local capacity of personal protective equipment
- Finalized statewide sector guidelines

## Principles of Resumption

EOU is committed to providing the greatest level of choice and flexibility to support student access, academic progression, and success. The following principles serve as the foundation to EOU's Resumption Plan.

### Collaboration with Local Authorities

- Union County and local health care providers currently have sufficient capacity to provide appropriate contact tracing and testing. EOU consults regularly with our county public health officials to maintain readiness standards established by Governor Brown.
- If needed, EOU will provide assistance to Union County and local health care providers for contact tracing and testing.

### Onsite Activities

- Provide for the health and safety of the students, faculty and staff, and community
- To the extent allowable under official public health standards, EOU will seek to resume in-person, on-site activities.
- Onsite activities will be coordinated in alignment with status of Union county.
- EOU will comply with appropriate small and large group activity standards established by the Oregon Health Authority and Union County.

### Instructional Delivery

- In-person courses may be taught in modified formats to comply with physical distancing, which could include a combination of in-person time in the classroom, hybrid, and remote learning.
- Lower density and room capacity for classrooms, labs, workplaces, and events

### Workplace

- EOU will initiate the return of employees to the workplace in August and September to minimize the impact.
- Not all EOU employees will always have the ability to work from home given the respective job requirements. In these cases, the public health measures implemented are designed to promote a safe working environment.

### Face Coverings

- Face coverings are a personal responsibility and an effective measure in minimizing the spread of the virus.
- Face coverings are a sign of social responsibility, respect, and care for fellow EOU community members.
- EOU requires the use of face coverings, as indicated in the Phases below

### Timeline

- EOU will continue to consult with local government and health authorities on phase timelines.

### Enhanced Cleaning

- Following [CDC guidelines](#), EOU will increase cleaning and disinfecting of high traffic and high touch areas.
- EOU will provide appropriate cleaning materials for classrooms, labs, office, and common spaces--including Residence Hall common spaces--on campus for the EOU community to take care of the space they utilize.

### Phased Approach

- EOU's Resumption Plan follows the gating criteria established by Governor Kate Brown and will align with the status of Union County. As Union County is approved for Phase 1, 2, or 3, EOU will follow suit.
- A measured approach to routine cleaning will occur in Phase 3, which maintains face coverings and physical distancing requirements.

# Phase 1

## Plan Details

### Public Health, Workforce, Travel

EOU is actively working to mitigate the spread of the virus, while taking steps to resume activities. We are grateful for the public health services within Union County and our region and are particularly thankful to work closely with Union County officials and local healthcare providers. Currently, local health care providers have ample capacity to meet testing and contact testing readiness standards. EOU stands ready to assist with testing and contact tracing practices should public health and healthcare authorities deem it necessary.

## Athletics

In addition to guidance issued by state and local authorities, EOU Athletics complies with the National Association of Interscholastic Athletics (NAIA), the Cascade Collegiate Conference (CCC), and the Frontier Conference. As guidance is issued by the entities above, EOU will update standards as appropriate.

# Phase 2

## Plan Details

### Public Health, Workforce, Travel

EOU is actively working to mitigate the spread of the virus, even while taking steps to resume activities. We are grateful for the public health environment within Union County and our region and are particularly thankful to work closely with Union County officials and local healthcare providers. Currently, local health care providers have ample capacity to meet testing and contact testing readiness standards. EOU stands ready to assist with testing and contact tracing practices should public health and healthcare authorities deem it necessary.

- Enhanced cleaning performed for all areas interacted with following OHA and CDC guidelines (see Introduction)
- All patients and staff screened for COVID-19 symptoms and fever
- Outside area with privacy screens utilized for care of patients, and to conduct COVID-19 testing for patients with symptoms if needed
- Follow current OHA and CDC criteria regarding testing
- Director of SHC to attend weekly meetings with local and state health department and emergency management team

**Counseling**

- Telehealth sessions offered; in-person sessions scheduled by preference of psychologist based on student needs
- Sessions offered by appointment only; no drop-in appointments
- Protocols for accessing services posted on Counseling Center website and explained in outgoing phone and email messages to students and campus community
- For in-person appointments, students will be notified to follow EOU policy face covering guidelines
  - Students will also be notified prior to their appointment that their therapist will likely not be wearing a mask, but rather physical distancing with their clients
- Interactions and meetings between psychologists may be in person, but interactions and meetings between psychologists and other colleagues (except for SHC staff) will be remote unless in-person is essential
- Enhanced cleaning for all areas following OHA and CDC guidelines (see Introduction)

**Hoke: Student Union Building**

- Open
- Clear signage posted in the common area of office with specific information about use of face coverings, physical distancing, handwashing, and information for those with symptoms to seek care and isolate
- Required physical distancing of 6 feet and face coverings
- Small and large meetings follow “Campus Offices” guidelines
- Enhanced cleaning for all areas following OHA and CDC guidelines (see Introduction)
- Student club offices may vary in operations dependent upon size of office and whether proper physical distancing can be maintained
- Vending machine access closed

## Plan Details

### Public Health, Workforce, and Travel

EOU is actively working to mitigate the spread of the virus, even while taking steps to resume activities. We are grateful for the public health environment within Union County and our region and are particularly thankful to work closely with Union County officials and local healthcare providers. Currently, local health care providers have ample capacity to meet testing and contact testing readiness standards. EOU stands ready to assist with testing and contact tracing practices should public health and healthcare authorities deem it necessary.
