

Eastern Oregon University- AEDs

AED Locations

Eastern Oregon University has 32 AEDs across campus. AEDs can be found on every floor of each building on the EOU campus. AEDs are normally located near the lobby areas of the building and all have an AED sign above them to ease finding their location. AED location can also be found on the building maps located throughout campus.

AED Servicing

AEDs at EOU are serviced regularly throughout the year. During these services expired pads are replaced, batteries are renewed, and first aid kits are inspected. If you notice an AED chirping please notify safety and security at 541-963-3911 for servicing.
