*Subjects Addressed by New Campus Authority (including wholesale transfer of OUS policy statement)*

<b>Subject/Topic/Title</b>	<b>Source of Authority</b>	<b>Recommendation</b>	<b>Notes</b>	<b>Responsible for Review</b>	<b>Recommended Action</b>
Academic Degree Program Planning and Implementation Process	Board Policy	HECC involvement and authority will fundamentally change the nature and scope of this policy. The new Provost Council might also play a role in this topic.	New campus-based policy will be necessary based on new HECC process.		
Academic Procedure and Credit	Board Policy		Do we need a policy that simply states that there are three, 12-week terms? This was last		

			addressed in 1932.		
Admissions Policy, Second Language College	Board Policy	Repeal after campuses are aware that they may need to address this topic and/or are confident that nothing needs to be done at the campus-level.			
Budgeted Operations Fund Balances	Board Policy		Campuses should determine if they are interested in a separate policy statement on this, but do not recommend repeal of the Board policy at this time.		
Class Size	Board Policy		Campuses should determine if they are interested in a separate policy statement on this, but does not appear to be relevant for the final fiscal year. Recommend repeal.		
College Courses Taught for Credit in High Schools, Guidelines For	Board Policy		This topic is likely superseded by much subsequent work, and is likely to be impacted by HECC's role. After confirmation that it is no longer relevant, recommend repeal.		
Community College Transfer	Board Policy		This topic is likely superseded by much subsequent work, and is likely to be impacted by HECC's role. After confirmation that it is no longer relevant, recommend repeal.		

			It was last addressed in 1972.		
Consensual Relationships	Board Policy		Campuses should already have policies on consensual relationships, so, determine whether or not it is advisable to repeal the Board policy at this time, since campuses already have these on the books and will presumably continue or revise them. Perhaps recommend repeal at a later date, or a self-actualizing automatic repeal on June 30, 2015.		
Debt	Board Policy		Campus to determine how to address the topic, but do not recommend repeal at this juncture. Confirm that the policy is nonetheless necessary considering USSE.		
Equity Contracting Purchasing and Data Reporting	Board Policy		Campus to determine how to address the topic, but do not recommend repeal at this juncture.		
Centers and Institutes in OUS	Board Policy		Campus to determine how to incorporate into policy structure, but superfluous at this		

			<p>juncture and recommend repeal. HECC likely to have role if this implicates significant change to the academic program.</p>		
FCC Licenses Operated Within OUS, Administration of	Board Policy		<p>Campus needs to address the topic if there are radio stations with FCC licenses, but until transfer is perfected, do not recommend repeal at this juncture.</p>		
Firearms	Board Policy		<p>Campus to determine whether or not to address the topic, but do not recommend repeal at this juncture.</p>		
Foreign Study Programs, Guidelines For	Board Policy		<p>Campus to determine whether or not to address the topic or whether there are current policy statements in which to incorporate the topic, but, this seems not relevant at this juncture. Recommend repeal.</p>		
Historical and/or Architectural Value, Properties of	Board Policy		<p>Campus to determine whether or not to address the topic or whether there are current policy statements in which to incorporate the topic, but, this seems not relevant at this juncture.</p>		

			Recommend repeal. List of properties may have historical value.		
Honorary Degrees	Board Policy		Campus should have an honorary degree policy. After confirmation, recommend repeal.		
Internal Bank	Board Policy		Because of USSE, a campus-based policy might not be required, but do not recommend repeal until there is clarity on whether any entity other than USSE needs this policy.		
Interest Rate Risk Management	Board Policy		Because of USSE, a campus-based policy might not be required, but do not recommend repeal until there is clarity on whether any entity other than USSE needs this policy.		
Investment Policy, OUS Pooled Endowment Fund	Board Policy		Because of USSE, a campus-based policy might not be required, but do not recommend repeal until there is clarity on whether any entity other than USSE needs this policy.		
Minority Student Enrolment Initiative	Board Policy		Campus should consider how best to address this topic in policy (whether it should be included		

			in the Diversity policy, etc.), but this outdated policy should be repealed.		
New Graduate Programs, External Review Policy for	Board Policy		Campus should consider, particularly with HECC, how to incorporate this into policy, but, after confirmation of existing process, including, but not limited to the Provost Council, recommend repeal.		
New Instructional Programs, Guidelines for Review of	Board Policy		This was last addressed in 1976. Campus should consider, particularly with HECC, how to incorporate this into policy, but, after confirmation of existing process, including, but not limited to the Provost Council, recommend repeal.		
New Instructional Programs, Follow-Up Review of External Review	Board Policy		Campus should consider, particularly with HECC, how to incorporate this into policy, but, after confirmation of existing process, including, but not limited to the Provost Council, recommend repeal.		
Off-Campus Instruction	Board Policy		Campus should consider,		

			particularly with HECC, how to incorporate this into policy, but, after confirmation of existing process, including, but not limited to the Provost Council, recommend repeal.		
Space Use Objectives and Building Planning Standards	Board Policy		This was last addressed in 1980. Campus should determine whether or not to promulgate a policy or whether it can be incorporated into current campus policy, but the outdated specificity does not seem to be relevant. Recommend repeal.		
Transfer and Articulation	Board Policy		This topic is likely superseded by much subsequent work, and is likely to be impacted by HECC's role. After confirmation that it is no longer relevant, recommend repeal.		
Student Loan Debt Management and Outreach	Board Policy		Campus should consider an institutional statement on student debt. Consider whether or not to repeal this policy now or include a self-actualizing automatic repeal on		

			June 30, 2015.		
IMD 2.001 Board Oversight of Higher Education Curricula and Institutions	IMD		Campus should consider, with HECC's new role, how to incorporate into current scheme. After confirmation, recommend repeal.		
IMD 2.010 Mission Statements	IMD		Campus should consider, with HECC's new role, how to incorporate into current scheme. Board should not repeal this IMD until confirmation that it addressed elsewhere.		
IMD 2.015 Approval of New Programs	IMD		Campus should consider, with HECC's new role and the potential role of the Provost's Council, how to incorporate into current scheme. Confirm that this was superseded by Provost Council process and, if so, recommend repeal.		
IMD 2.030 Credit for College Courses Taught in High Schools of Through Distance Education	IMD		Campus should consider, with HECC's new role, how to incorporate into current scheme and whether or not this is addressed elsewhere. Recommend repeal. This does not seem to be relevant at this level.		
IMD 2.035 Undergraduate	IMD		Campus should		

Transfer and Articulation			consider, with HECC's new role, how to incorporate into current scheme and whether or not this is addressed elsewhere. Recommend repeal. This does not seem to be relevant at this level and appears to be repetitive.
