Campus Employment is Negatively Related to Other Involvement

- On-campus employment was the only variable consistently related to involvement.
- However, the effects were very small, and on-campus employment is a form of involvement.
- Students rate this form of involvement as highly important.

Key Takeaways

- Many students are involved, but most aren't leaders.
- Students get their information from word of mouth, posters, and email.
- Students aren't satisfied with campus programming. They want more outdoor events and concerts.
- Events should be planned later in the day and later in the week.
- Students want professional, personal, and community development involvement opportunities.
- Students could benefit from a co-curricular transcript.

Policy Ideas

- Prioritize outdoor events and concerts.
- Increase total event offerings.
- Prioritize events held later in the day/week.
- Further explore co-curricular transcript.
- Improve club offerings.
- Schedule breaks during the day for professional development.
- Leadership recruitment, training, and retention.
- KISS: Reduce barriers to involvement wherever possible.
- Directly incentivize students to get involved. Should we pay student leaders?
