Q. Your Name:

R. Kelly Bane

Q. Your Story:

R. After my grandfather's passing in 2011, my aunt kept his belongings until this past year where I became the family archivist. As I went through them, I found a picture of Dorion Hall that must have been a post card because I located the exact same photo as your website has. If it wasn't for this site, I would not have put some pieces together. My grandfather served in WWII with the 94th Infantry, 3rd Army. There are some pictures of his time with the Army and at East Oregon College for Education that I'd like to share. Attached is the same photo that you have, but I cannot add his comments that are on the back to this submission. Please email me for some more, and maybe help me decipher or locate any more information about my grandfather at that time. His name was Robert G. Ellison.
