**Eastern Oregon University Mission, Values and Core Themes**

**Our Mission:**

EOU guides student inquiry through integrated, high-quality liberal arts and professional programs that lead to responsible and reflective action in a diverse and interconnected world.

As an educational, cultural, and scholarly center, EOU connects the rural regions of Oregon to a wider world. Our beautiful setting and small size enhance the personal attention our students receive, while partnerships with colleges, universities, agencies, and communities add to the educational possibilities of our region and state.

**Our Values:**

**Access**—EOU provides students from eastern Oregon and beyond the most felicitous access to a quality education through onsite, online, and on campus programs. Our priority is to remove barriers for students who may be place bound, financially restricted, or culturally/socially disadvantaged.

**Affordability**—EOU offers students a quality education at an affordable price. Our priority is to keep the total cost of college favorably competitive with universities in the region and across the State.

**Engagement**—EOU is responsive to the community and region by engaging in partnerships that support students learning and that enhance the economic, cultural and civic life of the region.

**Our Core Themes and Goals**

**Theme 1:** EOU has high quality liberal arts and professional programs that prepare students for the world beyond college.
- Goal 1: Foster and assess student learning
- Goal 2: Ensure faculty and staff success

**Theme 2:** EOU is a regional University with a deep sense of commitment to students where they are.
- Goal 3: Serve students where they are
- Goal 4: Make excellence inclusive
- Goal 5: Adopt and enhance appropriate educational technologies

**Theme 3:** EOU is the educational, cultural and economic engine of eastern Oregon.
- Goal 6: Foster Partnerships
- Goal 7: Ensure a fiscally and environmentally sustainable university environment
- Goal 8: Provide programs and resources to respond to high demand regional needs

**Theme 4:** EOU provides personal, student-centered experience in both the curricular and co-curricular programs.
- Goal 9: Ensure access and success for all students
- Goal 10: Provide opportunities for students and faculty to engage with their community
To actualize EOU’s Mission, to live our values, and to reach our stated goals of our institution and to meet our obligations to the State of Oregon and her citizens, we will focus our planning, implementation and execution of our efforts in the follow six focal areas:

- **Persistence**—from application to graduation, ensuring our students are able to navigate a pathway that supports their goals;
- **Financial Sustainability**—remaining sustainable and viable and allocating resources appropriately;
- **Diversity**—creating an inclusive community comprised of individuals with varied cultures, beliefs, and backgrounds;
- **Seamless K-20 Pipeline**—creating a college going culture throughout the entire region;
- **External Engagement**—increasing private support and legislative advocacy; and,
- **Partnerships**—increasing the importance of our connections to the communities we serve.

Each of these focal areas is critical to the success of our core themes and supporting our mission and values. Each one also is directly coupled with our Performance Compact with the State of Oregon. While each focal area will require a coordinated effort among all of our divisions and units, a single person is empowered to assemble the requisite team members and will be responsible for providing leadership for the focal area by assembling the proper team, making recommendations of any necessary changes, initiating tactics, coordinating resources, etc. The stated goals of each focal area is based on EOU’s current Performance Compact, OUS Performance Measurers or based on other previously accepted EOU planning outcomes. (In the following pages, if current figures are known, they will be placed in parenthesis.)
