"The experience I acquired through the seminar is invaluable. Activities like presentations, critiquing and even mini internships were among the many introduced to us throughout the course. I highly encourage anyone in a STEM field to seriously consider the ASTEO Scholarship.”

Zachary Johnson, Junior
Computer Science & Mathematics
Garden Valley, Idaho

ASTEO SCHOLARS WILL:

- Receive up to $7,500 annually for tuition and fees.
- Participate in hands-on learning during your first year of study.
- Live in a STEM community on campus in our top-notch residence halls.
- Attend monthly STEM activities with program faculty.
- Be eligible for summer internships to build a strong resume.
- Be eligible for a paid position as an ASTEO Ambassador for EOU.
TO APPLY:

- Applicants must major in one of the STEM fields: biology, chemistry-biochemistry, computer science or mathematics (students pursuing a career in health-related fields are not eligible)
- Apply for admission to EOU at eou.edu/apply
- Be a freshman or new transfer student attending EOU at our La Grande campus
- Submit an ASTEO scholarship application at eou.edu/asteo
- Demonstrate plans to pursue a career or enter graduate school in biology, chemistry-biochemistry, computer science or mathematics
- Submit an SAT math score of 550+ or an ACT math score of 25+
- Submit your FAFSA application at fafsa.ed.gov (opens Oct. 1)
- Be a U.S. citizen, permanent resident, national or refugee

SELECTION PROCESS

The process involves a thorough application review followed by an interview with the ASTEO Scholars selection committee.
