Bachelor of Science in Chemistry-Biochemistry
Flexible degree for multiple career paths!
Health care professional, researcher, patent lawyer, forensic scientist and teacher are just some of the career paths open to you with a chemistry-biochemistry degree!

Private college quality for a public education price!
EOU’s chemistry-biochemistry program features small class sizes, state-of-the-art facilities, and a nationally recognized student chapter of the American Chemical Society. All students carry out and present undergraduate research – practices highly valued by employers and graduate schools.

Flexible for your schedule!
This major can be completed: On campus — La Grande

“"I felt prepared for medical school with the good foundation EOU gave me. The faculty are teaching-oriented and accessible. I loved that it was a small campus and I also came out with a lot less debt.”"

Shakira Bandolin, ’09
Biochemistry
Physician (UC-Davis Medical Center)
Study – Research – Learn!

> 91% acceptance rate to graduate and professional schools.
> Small class sizes and personal attention.
> Outstanding facilities and research experiences.
> Nationally recognized program and faculty.
> Professional networking at the regional and national level.

Prepare for a career
